Suitable Vehicle Type

Product Features & Benefits.

- Pattern Design

Feature

High Blade Density

Benefit

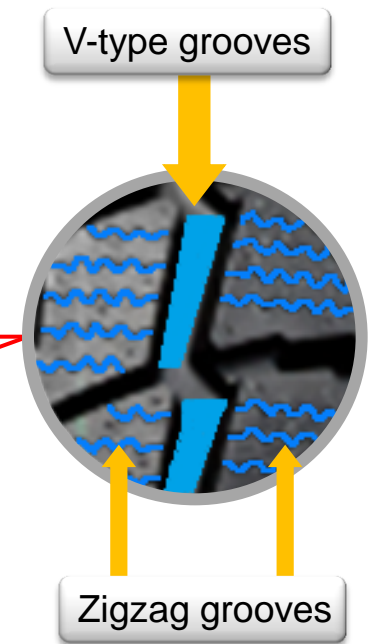

High Traction in Winter
Conditions

Product Features & Benefits.

- Pattern Design

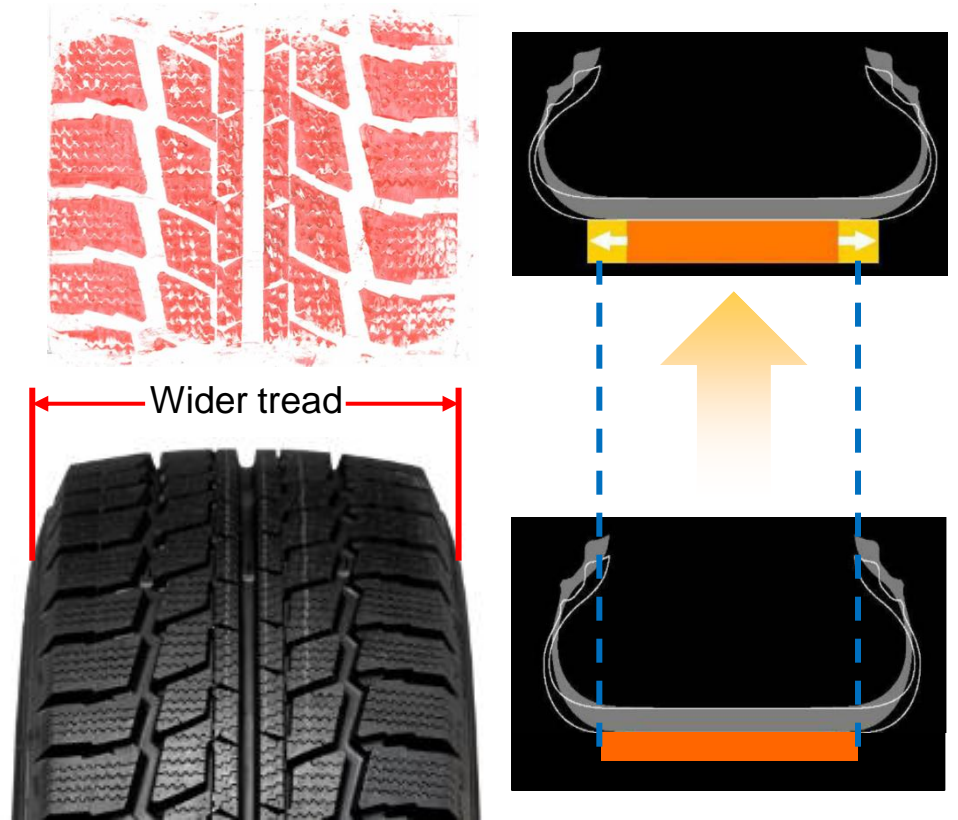

<p><i>Feature</i> Deep V-type Main Grooves and Zigzag Shoulder Grooves Design</p>
<p><i>Benefit</i> Provide Good Snow Traction and Driving Capability</p>

Product Features & Benefits.

- Structure Design

<p><i>Feature</i></p> <p>Wider tread with less height & larger footprint to increase the tire contact area</p>
<p><i>Benefit</i></p> <p>Enhance Tire Ice Traction Performance, Improve Mileage</p>

Product Features & Benefits.

- Pattern Design

Feature

Wide Circumferential and
Radial Groove

Benefit

High Water and Slush
Evacuation Capability

Product Features & Benefits.

- Pattern Design

Feature

Large shoulder blocks

Benefit

High loading capacity
